- What does VIS need to know
  - For example, indicators for either enemy ML COA or enemy MD COA to help assess which COA the enemy is following
  - Indicators for a specific action/event that is expected/feared
  - Basic information that help VIS build a better understanding of the situation
- Should be put on the VIS IR List, and JFACC should consider the list when tasking flights, and see if anyone is able to answer some if the Intelligence Requirements that are important to VIS
